**Forecast for Thursday 01 Jun 2023**

**Weather:** Low cloud soon returning from the east during the early hours, with perhaps clearer skies further west of the park. Cloud gradually breaking and lifting through the morning, perhaps quicker than on Wednesday, to leave a fine day with plenty of prolonged warm sunshine. Remaining dry with clear skies into the late evening. Very high UV levels.

**Chance of cloud-free hill tops above 600m:** 80% in the east first thing, becoming greater than 90% by mid-morning.

**Low cloud and visibility:** Low cloud, mainly on eastern slopes first thing with bases around 400 m, soon lifting and breaking to above the summits by mid-morning, though some tops above 700m remaining above the cloud. Poor visibility initially in lower cloud, however soon rising to very good once dissipated.
